

Technologically savvy web developer supporting work of databases, servers, system engineering and clients. Passionate team player and programmer with drive to learn and master new technologies and propose innovative ideas for back-end and front-end applications. Understands website functionality and coding for multiple platforms and meticulously creates fully functional code.

Projects

- **Task Train**

<https://task-train.herokuapp.com/>

Useful app that allows users to ask for help or to support others with everyday tasks.

- **Employee Tracker**

<https://github.com/jmaraya1229/EmployeeTracker>

Content management system that can manage a company's employee database using Node.js, Inquirer, and MySQL.

- **E-Commerce Back End**

<https://github.com/jmaraya1229/ECBackEnd/>

Back end of an e-commerce website by configuring an Express.js API and MySQL database.
