

Projects

BACH - B2R Audio Client Handler - React, GraphQL, HTML, CSS

<https://github.com/WTJMplayer/b2r-player>

- A responsive personal music player where signed up users can upload and play music.
- Fetched uploaded music through Apollo GraphQL from a database created with MongoDB.
- Developed the majority of the React components including a mobile-first layout and utilized Chakra UI component library for styling.

Pawpal - JavaScript, HTML, CSS

<https://jmaraya1229.github.io/Pawpal/>

- A pet adoption website styled with Bulma CSS that incorporates Openweathermap API to grab city data and Petfinder API to fetch adoptable pet data.
- Persisted favorite pet data using Local Storage Web API.
- Followed responsive web design principles by adapting to mobile and desktops views.

Task Train - JavaScript, Handlebars, HTML, CSS

<https://task-train.herokuapp.com/>

- A web application styled with Foundation CSS that allows users to ask for help or to support others with everyday tasks.
- Applied the MVC pattern and used Handlebars for page templates.

Work History

Critical Care Partner - UCSD Medical Center

03/2021 - Present

- Monitored client vital signs, administered medications and tracked behaviors to keep healthcare team members well-informed.

Patient Care Assistant - Scripps Green Hospital

10/2015 - 03/2021

- Monitored, tracked and conveyed important patient information to healthcare staff to help optimize treatment planning and care delivery.
- Educated staff how to navigate EPIC software and developed a paper system for when the system had to implement updates.
- Performed troubleshooting and repaired peripheral devices such as printers, and scanners.

Education

Certificate: Web Development - UCSD Extension Coding Bootcamp

11/2021 - 05/2022

Associate of Science: Biology - San Diego Miramar College

08/2017 - 08/2019
